The guide is more than just a list of shows. It comes packed with features designed to simplify your entertainment choices. Below are the standout capabilities that make the **Cox TV Guide Las Vegas Nevada** so useful for local residents.

Customizable Channel List

Instead of scrolling through 200+ channels, you can create a personalized favorites list within the guide. Mark only the channels you watch regularly — such as KLAS-TV (Channel 8), KSNV (Channel 3), or ESPN for Raiders coverage — and the guide will show them in a condensed view. This saves time and keeps your browsing focused on what matters most.

Search Functionality

Looking for a specific show or movie? Use the search feature in the guide (available on the remote via the magnifying glass icon) to type in the title. The guide will display all upcoming airings across every channel, including live and future broadcasts. You can even search by actor name or genre.

Parental Controls

Families in Las Vegas can take advantage of the guide's parental control settings. You can lock channels or specific ratings levels, ensuring children only access age-appropriate content. The guide also allows you to block entire categories such as adult programming.

Reminders and Recordings

If you have a Cox DVR (Contour or standard), the guide integrates seamlessly. While browsing, press "OK" on a future program and choose "Record" or "Remind Me." The box will either record the show to your library or send a pop-up reminder when it starts. This is especially helpful for busy Las Vegas schedules.

Detailed Program Information

Each entry in the guide includes a synopsis, episode title, season number, and original air date. For movies, you will see the year, rating, cast, and runtime. This eliminates the need to search the internet for show details.
